

Kurzer Lebenslauf

Daniela Buchmayr, a seasoned leader in the biopharmaceutical industry, brings over 15 years of experience to her pivotal role. Her academic background, an engineering degree in biotechnology combined with an MBA in Innovation and Entrepreneurship from the Economic University Vienna, has been instrumental in her successful career. Excelling in various management positions across international corporations, Daniela has been at the forefront of developing strategic market and business initiatives, as well as leading transformative, cross-functional innovation projects. Driven by her passion for transformative breakthroughs, Daniela Buchmayr established Sarcura, taking the helm as its CEO. At Sarcura, she is spearheading a revolution in cell therapy manufacturing, transitioning from automation to miniaturized, autonomous systems. By harnessing advanced semiconductor technologies within microfluidic cartridges, Sarcura is poised to enhance the efficiency of production processes significantly and lower costs dramatically, expanding access to life-saving therapies and marking a pivotal step forward in the field.
